

Notes on AI philosophy

Popularity and financial interests

Debaters strive for popularity.

CEOs strive for promoting the interests of their companies.

AGI Impact / Timeline	Soon	Distant
Great!	Sam Altman #367 Lex Fridman 	Yann Lecun #258 Lex Fridman  ROUND 2
	Eliezer Yudkowsky #368 Lex Fridman 	

Current vs imaginary tech

Typically intermingled:
talk about current tech
mixed with talk about
imaginary tech

Intelligence vs consciousness

Consciousness (and sentience) questions tend to creep into the thinking about intelligence.

However, consciousness is an extremely hard problem even outside any AI issues

Different dimensions of thought

Recommended fresh podcast episodes

Machine learning street talk:

- Eliezer Yudkowsky and Stephen Wolfram on AI risk
- Francois Chollet: pattern recognition vs True Intelligence (see also ARC challenge)
- Episodes about current research on the ARC challenge

Eye on AI:

- Ben Goertzel
